

Startled, you drop your cup.

This webpage is different from other webpages.

You and YOU ALONE are in charge of what happens in this story. There are dangers, choices and consequences to not having a backup plan.

A backup plan

No backup plan (or a backup plan to your backup plan) could end in disaster—even death (of your hard drive).

But don't despair. You can set up a 3-2-1 backup plan, which can help prevent catastrophic loss of your creative work?

Unsure of what a 3-2-1 backup plan is? Visit preservethispodcast.org!
